

## National / Commercial Hive Stand

Place the legs as shown and fix the short rear cross rail using 4 x 40mm black screws.

Repeat this with the other 2 legs that will make up the front of hive stand.

Next place the completed front and rear legs as shown and fix with the long side rail. Use 4 x 40mm black screws.

Carefully turn the stand over and repeat the process with the side again fixing with 4 x 40mm screws.
